TURBULENT SCENES IN RUSSIAN CITIES

Only a Robespierre Needed to Drench
the Country With Blood.

RADICALS EXPRESS DISTRUST OF THE GOVERNMENT'S PROMISES

Another French Revolution May be Prevented Only
by a Lack of Leaders.

ALL LACKING IS A LEADER.

St. Petersburg, Nov. 1.—The night was turbulent, and the situation is dangerous. All that is needed is a Robespierre or a Marat to drench the city with blood. The only reassuring feature is that there are no real leaders.

The strike leaders have instructed their followers to abstain from working until a general amnesty is decreed. The radicals have issued a statement which says "The government is composed of cowards. We have no faith in their promises. We have already won a great victory and shall continue the struggle. We are supported by five million workers, the whole navy and part of the army. We pay no attention to promises. The czar has proved unworthy of our respect."

MANY CONFLICTS.

Odessa, Nov. 1.—Isolated conflicts between the people and troops are occurring constantly, and it is estimated that fully a hundred persons have been killed. The consulates and all the principal buildings are under military guard.

The students have formed a civil guard and have been trying to hold the workmen who attacked them in check. Both sides have fired frequently and hand to hand conflicts have occurred. Dead bodies are lying everywhere in the streets. In addition to a hundred killed it is believed that five hundred are wounded.

RED FLAGS FLYING.

Helsingfors, Nov. 1.—Red flags are flying on many buildings today and unrest prevails. The employees of the gas and electric plants have struck and the police joined the strikers. The people insist that a general election to choose members of the National Assembly be held.

Rowdiness Last Night.

Odessa, Nov. 1.—Something approaching panic here last night. There was much indiscriminate shooting and bands of roughs prowled in various quarters looking for opportunity to pillage.

It is openly stated that the police and military are indignant at the changed order of things resulting from the emperor's manifesto and are abetting the disorderly elements in order to give excuse for violence. In one encounter it is reported several persons were killed or wounded.

These Strikers Obdurate.

Warsaw, Nov. 1.—Employees of the Vienna railroad have decided to remain on a strike until the question of the use of Polish language is settled and until the government proclaims amnesty for political prisoners and a self-government for Russian Poland.

Killed 8 Workmen.

Pabianice, Russian Poland, Nov. 1.—The infantry fired on a procession of workmen yesterday afternoon killing eight and wounding twenty-four.

Hopes for Suffrage.

St. Petersburg, Nov. 1.—Count Witte has announced to a friend that he was not without hope that universal suffrage would be introduced before the elections for state douma took place.

This announcement which spread among the liberals will enroll many of the latter among the friends of the new government against the Socialists who announce they will be satisfied with nothing less than a Democratic republic on the basis of state Socialism.

If the agitators force collision and the army stands firm resultant bloodshed will be apt to react against them and drive all except the radical element into the government camp, assuring Witte a strong majority in the douma when it assembles.

Gen. Trepoff Resigns.

Paris, Nov. 1.—A despatch print-

ed by the Eclair states that Gen. Trepoff has resigned.

100 Killed in Street Fight.

Berlin, Nov. 1.—The local branch of the Russian revolutionary party has received information that four hundred persons have been killed in street fighting at Kharkoff since the czar's manifesto.

Another French Revolution.

Odessa, Nov. 1.—In the fighting during the night a mob incited by police was attacked and a semi-official report places the killed at eight, with thirty-one wounded. Accurate information is impossible owing to the reticence of the authorities. The situation is the most serious since the strike. It is feared the revolution will assume features of the French revolution.

Fired On Strikers.

Warsaw, Nov. 1.—Employees of the Vienna railway met this morning and were dispersed by soldiers firing several volleys, killing and wounding many. All traffic was stopped, and the shops have closed.

INCIDENT CLOSED.

Governor of Nankin Has Apologized to American Officers For Attack.

Washington, Nov. 1.—The incident growing out of the attack on Admiral Train and his son by the Chinese mob near Nankin has been satisfactorily adjusted by the state department which received a dispatch which gave the details of the attack substantially as already published, and adds:

"The governor of Nankin apologized to the officers, restored their guns and punished ringleaders of the mob. The incident is regarded as closed."

NEW FLAG OF SWEDEN

Now Flies Over All Buildings—Independence of Norway Recognized.

Stockholm, Nov. 1.—The new Swedish flag was hoisted today throughout Sweden. King Oscar witnessed the raising of the flags on all buildings from the roof of the palace.

Liked the Mill.

Boston, Mass., Nov. 1.—Teddy Roosevelt, Jr., son of the president, attended the Goodman-Corbett fight last night and was delighted. He said, "This is real sport."

Recognize Norway.

Christiana, Nov. 1.—The independence of Norway has been recognized by Japan and Germany.

POLICE NOW KNOW NAME OF THE DOCTOR

Who Cut Up the Body of Chorus Girl.

With All the Hubbub the Prosecution Can Only Be For Criminal Operation, Police Say.

THE GIRL WAS NOT MURDERED.

Boston, Nov. 1.—Chief Inspector Watts says that the doctor who dismembered the body of Susan A. Geary, the suit case victim, has been located.

He did not expect, however, that an arrest would be made for a day or two, intimating that the police were awaiting something more definite from Morris Nathan, lover of the girl, who is now in custody at Pittsburg, Pa.

Dr. Robert J. Henderson is said to be the name of the doctor who was formerly connected with "Mrs. Dr. Bishop's" office at 178 Tremont street.

A cabman has identified Henderson's photograph as that of one of the two men carrying a suit case whom he drove to the Chelsea street ferry the night of September 29, a few hours previous to the gruesome discovery.

Evidence was secured by the police showing that the Geary girl died as the result of an operation in the office of a notorious criminal practitioner on Tremont street. She died on the operating table immediately after.

The doctor who performed the operation can be punished for abortion. Probably he can not be proceeded against for any more serious crime. It is doubtful if Henderson, who, it is alleged, helped to cut up the body, can be prosecuted for any crime, since it is practically certain that death took place before he had any connection with the matter.

CHEATED JUSTICE.

Alleged Murderer Suicides Before Trial—Alleged Embezzler Before Arrest.

Delphi, Ind., Nov. 1.—Marshal Fred Thompson hanged himself from the cell door of the jail today. Thompson was charged with the murder of his father-in-law, William Dellinger and his trial was set for today.

Suicided Over \$850.

Columbus, O., Nov. 1.—Charles H. Reuter, a real estate agent shot and killed himself yesterday afternoon as detectives were about to arrest him on charge of having embezzled \$850 entrusted to him.

\$100,000 BLAZE.

In Pensacola, Fla.—Explosion Does Damage.

Mobile, Ala., Nov. 1.—A destructive fire occurred at Pensacola, Fla. The loss will exceed \$100,000. The principal block of the city caught fire and was partially wrecked by an explosion of gas.

100 Per Cent Assessment.

Pittsburg, Nov. 1.—Notice of an assessment of a hundred per cent was today sent to the stockholders of the wrecked Enterprise National bank by Receiver Cunningham. It is believed another assessment will be authorized later.

Arrest Expected Today.

Boston, Nov. 1.—The arrest of the physician who performed the criminal operation on Miss Geary is expected today. A bundle of woman's underclothes was found Sept. 18 by Robt. Young, and just turned over to the police is believed to be connected with the affair.

No Suit Against Mr. Rehkopf.

The statement in Saturday's paper that a case of the Farmer's bank against E. Rehkopf was on trial was an error. Mr. Rehkopf was never sued by a bank. The suit was that of the Farmer's bank against M. Bloom and others.

Dog Guards Boy's Body.

Marion, Ind., Nov. 1.—The remains of Harry Hart, aged 14, were found in the woods, guarded by his dog. The boy had gone hunting, and by the accidental discharge of his gun, his head had been torn almost entirely off.

FORTY-TWO QUERIES MADE OF RAILROADS

Railroad Commissioners Propound a List of Questions.

All Railroads Must Answer So Far as Their Kentucky Business Is Concerned.

COMMISSIONER FERGUSON BACK

Railroad Commissioner Mac D. Ferguson returned this morning from Frankfort, where he had been to attend a meeting of the commission yesterday. The Kentucky Railroad Commission yesterday through Chairman McChord, promulgated forty-two questions to be answered by all railroad companies operating in and through the state, upon response being made, to which it will begin the investigation and hearing inaugurated several months ago looking to the regulation of all traffic rates charged for hauls within the confines of the commonwealth. It fixed Tuesday, Nov. 14 next in the departments of the commission here to begin the hearing which will last several months.

The questions put to the companies are grouped under four headings, they being as to "valuation," "gross earnings and income," "operating expenses" and "traffic and mileage statistics."

The companies can only be required to answer as to Kentucky traffic, passenger and freight, and the questions put are directed only to these. Letter questions will be put to the secretary of each company and the commission has reserved to itself the right to supplement the questions put today. The questions are addressed to the auditor or comptroller of the several companies. In each question, "what proportion is assignable to Kentucky traffic?" is asked, and also "method of assignment."

The questions put under the heading "traffic and mileage statistics" are the most numerous, going into detail as to the tonnage and gross and net earnings per mile on state traffic.

KENTUCKY MINERS

Are to Meet Relative to the Esch-Townsend Bill.

Louisville, Ky., Nov. 1.—Operators and mine owners of practically every coal mine in Kentucky will meet in this city Nov. 13 to take action on the Esch-Townsend bill, which will again be considered by congress at its coming session. The object of the meeting which was called by Hywell Davies, of Knoxville, Tenn., will be to present a petition to President Roosevelt and the Interstate Commerce Commission, of congress, declaring against the measure. A similar meeting will be held in Knoxville on the day following the meeting in this city, when a like petition will be signed by Tennessee operators.

Under the present adjustment of rates Kentucky and Tennessee mines compete successfully with Indiana, Alabama, Pennsylvania and West Virginia coal fields. Their owners say that the passage of the Esch-Townsend bill will restrict their market to Kentucky and Tennessee.

DIRECTORS CHOSEN.

By the Incorporators of the New Companies.

The incorporators of the Paducah Traction company and the Paducah Light and Power company met this morning and elected fifteen directors. Ten of them reside in Boston and the remaining five, Messrs. Joseph L. Friedman, George C. Wallace, George C. Thompson, W. P. Paxton and J. C. Utterback, are from Paducah. The directors met in pursuance of the articles of incorporation just filed. It has not yet been decided when the newly elected directors will meet to elect officers.

BANKER W. B. SMITH HAS SURRENDERED

Returned to Louisville Last Night and
Gave Himself Up Today.

WAS NOT A FUGITIVE AT ANY TIME HE DECLARES---IS OUT ON BOND

Says That He Is Innocent---Had Copy of Indictment
Sent to Him in New York.

Louisville, Ky., Nov. 1.—W. B. Smith, former president of the Western National bank of Louisville, who was indicted on ten counts for alleged irregularities in the management of the bank, and for alleged embezzlement, returned to Louisville last night and surrendered to the federal authorities at the custom house.

Banker Smith was away from Louisville at the time the indictments were returned and was thought to be a fugitive. It was reported he was in Porto Rico. When last heard from before action was taken, Smith was in New York City, whence he wired his resignation as director of the Western National bank.

The bank was closed sometime ago by United States Bank Examiner Marriett, but was reorganized and has reopened in handsome new quarters at Third avenue and Market street.

The accused banker is represented by Attorney W. M. Smith.

Banker Smith when approached by a reporter said: "I am not guilty of any offense and will be able to establish my innocence. I do not care to go now into the details of the indictments. I went from Louisville to Porto Rico, with my father, C. A. Smith, of Henry county."

"Before leaving I expressed my intention of going there. I read the indictments against me in New York two nights ago, and then came to Louisville."

At 11:30 o'clock this morning Mr. Smith entered the office of the United States Circuit Clerk and surrendered. His attorney immediately announced that arrangements had been made for bail. The American Surety company, represented by Attorney Samuel Bland, then became surety for Mr. Smith in the sum of \$5,000 the amount heretofore fixed by Judge Walter Evans.

After the bond had been given the following authorized statement was made for Mr. Smith by his attorney: "Mr. Smith left Louisville simply for a rest. He concealed his address from his lawyer because he did not desire to be worried by messages and business communications. However, he learned that he had been indicted and sent word that he would arrive here October 29. He would have been here on that date but was delayed. At his request a copy of the indictments against Mr. Smith were sent to him before he left New York, and he is now familiar with their charges against him. There was no intention on the part of Mr. Smith at any time to be a fugitive."

Mr. Smith arrived in Louisville last night. It is supposed that he delayed surrendering until this morning, pending the making of arrangements to give bond.

United States Marshal A. D. James was on a train bound from Madisonville to Louisville last night and recognized Mr. Smith, who was a fellow passenger.

Dr. James then wired Deputy Marshal Jeff Cundiff, who met the train and who shadowed Mr. Smith to Parkland, where the latter entered a house at 28th street and Virginia avenue. Mr. Cundiff had no warrant and he returned to the center of the city to find Deputy Marshal William Blades, who had the necessary papers, but the search was futile. Mr. Blades having changed his boarding house.

Mr. Smith owns twelve shares of stock in the Boston Banking company, of Nelson county, if the allegations contained in an answer to a garnishee filed by the latter concern are true. When the Western National bank on October 21 sued the Paducah Investment company, C. M. Martin and W. B. Smith on two notes aggregating \$3,000, the Boston Banking company was attached upon the belief that it held some of Smith's funds. This answer to the garnishee denies that any of Smith's money is

in its hands. However, the information is voluntary that the stock in question stands in Smith's name and no record has been entered showing a transfer to anyone else.

REFUSED SENATORSHIP.

Death of Kansas Preacher Who Was One of Famous Characters in Border Warfare.

Kansas City, Mo., Nov. 1.—The Rev. H. D. Fisher, who died at Baldwin, Kan., was one of the most famous characters produced by the trying days of the border warfare in Kansas and the subsequent four years of civil war. Because of his activity as a free state man and his association with United States Senator "Jim" Lane, the Rev. Fisher was marked by the Quantrell band, and his escape from capture and death during the Lawrence massacre is one of the most thrilling and remarkable incidents of that affair.

Dr. Fisher was one of the few men who ever refused a United States Senatorship. When Senator Lane committed suicide, Gov. Crawford announced his intention of appointing Dr. Fisher to fill the vacancy. Later the Rev. Fisher said in relating his reasons for refusing the offer: "My wife and I laid the matter before God in prayer. The decision was against accepting the appointment."

FIVE AMERICANS

Reported Murdered by Chinese in Kwang Tung.

Hong Kong, Nov. 1.—It is reported here that five American missionaries were murdered in the Lienchow province of Kwang Tung.

Rev. Meldrum, of the Cleveland Presbyterian church, is the only denomination maintaining a mission. Lian Choo says the missionaries stationed there are Dr. E. C. Machie and wife, Cincinnati, Rev. E. E. Edwards and wife and Miss Eleanor Chestnut and Miss E. Patterson.

KNEW ALL ABOUT IT.

President Aware of the Czar's Intentions Four Days Ago.

Washington, D. C., Nov. 1.—President Roosevelt was informed four days before the news was given to the world that the czar would grant Russia a constitution on the evening of Oct. 26. Just before the President left New Orleans to board the cruiser West Virginia, a cipher dispatch was received outlining the program.

To Investigate Philadelphia.

Washington, D. C., Nov. 1.—Commissioner Cooley, of the civil service commission, left for Philadelphia to start an investigation into the alleged political activity of certain men in the present campaign.

The Forbidden Land.

A large and appreciative audience
enjoyed "The Forbidden Land" at
The Kentucky last night. The cast
contains some good people, and the
company is large. Paducah seems to
be a "hoodoo" for the show. Last
season it was delayed in arriving and
the curtain did not rise until 10
p. m. Yesterday the company arrived
at 8 a. m. but it was learned that
two of the men got left at Cairo and
they could not reach Paducah until
8 last night, and the show was de-
layed half an hour.

"The Forbidden Land" is a fine
production, and gave great satisfac-
tion. Edward Garvie is a good com-
edian and received excellent support
from Charles Morgan, Thomas Cam-
eron, W. H. Clark, Hughie Flaherty,
Alma Youlin, Mabel Laffin, Grace
McAry and others. The chorus is
large and well trained, and the mu-
sic tuneful.

sent "Fritz and Snitz" at the Ken-

tucky, their first appearance in Pa-
ducah. It is a musical comedy and
promises to get good business.

Jewell Kelley Stock.

Manager Thomas Roberts will pre-
sent on Thursday, Friday and Satur-
day, the Jewell Kelley Stock com-
pany, which comes highly recommend-
ed. It has been playing Evansville
and other such cities, and is said to
be a first class show of its kind. The-
ursday night "A Fatal Wedding"
will be presented. "Little Lord
Fauntleroy" will be presented at the
matinee Saturday.

Many Theatrical People Here.

A number of theatrical people
were at The Kentucky last night as
guests of Manager Thomas Roberts.
They were members of the "Told in
the Hills" company. The company
was to have played Paducah last
night, but was cancelled out and in
some way did not receive the notice
until too late to rearrange dates. The
company arrived from Evansville
and went to Cairo today. In addition
to the members of this company,
there were several members of the
river shows in the audience last
night.

A Fine One Coming.

Manager Thomas Roberts has
booked for November 8th one of the
best attractions on the road, "The
Winning Girl," another of Frank
Perley's productions. Mr. Perley is
one of the rising managers and owns
"The Girl and the Bandit" here re-
cently. He is himself with "The Win-
ning Girl," and his advance man, Mr.
Lee Kugel, was in the city last night.
The troupe has been playing St.
Louis and Chicago and goes straight
to Broadway, New York after play-
ing a few dates on the way.

"The Winning Girl" is a straight
comedy with musical accompaniment
and the St. Louis papers last week
gave it a good recommendation, and
the Post Dispatch calls it "the white
blackbird of musical comedy—it has
a plot of its own." An unusual thing
about this production is that its prin-

cipals are mostly New York favorites
from Broadway who are now on the
road for the first time. There are two
Kentucky girls in the cast, Miss
Florence Saunders and Miss Bren-
nan, both of prominent Louisville
families, the latter's stage name be-
ing Jane Mandeville. Miss Blanche
Deyo, one of the prima donnas, al-
though 'hardly out of her teens, has
been all over the world, and was the
first American woman to travel from
St. Petersburg to Vladivostok over
the Trans-Siberian railroad. Mr. Per-
ley's success in his productions has
been phenomenal, and "His Winning
Girl" is said to be his best.

Is Old Newspaper Man.

Frank Perley, the opera manager
who will be in Paducah next Wednes-
day, is an old newspaper man, and
for many years was press agent for
the Barnum and Bailey circus. He
has won a reputation among sing-
ers for his kindness and considera-
tion and never refuses to hear aspi-
rants for vocal honors and advise
them whether or not success on the
stage is possible. In every city he
visits he tests voices in this way as a
matter of accommodation, and if
there are any in Paducah who want
to know the truth about their ability
he will no doubt gladly hear them.
He has in this way discovered several
stars.

Had An Open Date.

"The Forbidden Land" company
had an open date today, and the
members remained in Paducah until
noon, when they left for Evansville,
where they open tomorrow night.
They were booked in Washington,
Ind., for today but it was such a
jump that they did not try to make
it, and cancelled.

PRESIDENT FISH

And Other I. C. Officials Went East
This Morning.

This morning between 10:30 and
11 o'clock President Stuyvesant Fish,
Fourth Vice President W. J. Hara-
han, General Manager I. G. Rawn,
and other I. C. officials, left Prince-
ton for Louisville on a special train.
The party had been at Nashville,
Tenn., on business connected with
the leasing of the Tennessee Central
by the I. C. Conductor Tom Flynn,
Engineer Louis Cofer and Flagman
J. D. Elmore, of the Louisville and
Memphis "high ball" runs, were sent
to Paducah last night and after lay-
ing over here went to Princeton on
the morning accommodation train to
meet the officials and take the spe-
cial train out.

Trainmaster L. E. McCabe and
other division officials met the party
and accompanied it up the division.
The train will make a record run to
Louisville.

GOES ON THE ROAD.

Mr. F. E. White, of the News-Demo-

Mr. Frank E. White, for the past
year circulation manager of the
News-Democrat, has resigned effec-
tive Sunday, and has accepted a po-
sition traveling for the Sutherland
Medicine company with Georgia as
his territory. Mr. White will still
claim Paducah as his home and come
here as often as his work will permit.
He has made many friends since he
came here a year ago and on ac-
count of his genial personality, energy
and other good qualities, will no
doubt make a great success as a trav-
eling salesman.

Mr. W. M. Pace, of near 13th and

last night and a brick hurled
through a window.

The family heard a terrific crash

work of boys who were out playing
Hallow e'en pranks.

MUCH INTEREST IN THE FRISCO RUMORS

Various Reports in Circulation, But None Authentic.

One Rumor is That Interurban Right of Way Might Be Purchased.

OFFICIALS COMING AGAIN SOON.

The visit to Paducah of the Frisco officials day before yesterday has put into circulation all sorts of rumors but thus far they are all rumors. Among them are reports that the Frisco might use the right of way of the proposed electric line from Paducah to Cairo, which, if suitable for their route from Joppla to Paducah, would be cheaper and quicker than surveying new lines and getting the right of way. That is, of course, if the promoters of the electric line wanted to sell their right of way.

Another report is that the Frisco will come to Paducah by water, using steel barges to transfer its trains from Joppla to Paducah. Still another is that it will come from Joppla through Metropolis and Brookport and cross at a point opposite the city, and ultimately build a bridge here.

Mr. J. J. Freundlich, one of the promoters of the electric line, stated this morning that he did not know anything about the Frisco wanting to use his route. He did say, however, that it would cost the Frisco considerable money to get a right of way to Paducah and that if it were true that the road was going to use the interurban rails that it would mean a big saving to the company. He did not discuss the question further, and said he did not know any of the Frisco officials, except President Davidson, whom he met two years ago.

News of the prospects of this road entering Paducah has been the topic of conversation in business circles all day and it is heralded with gladness. It is a big thing for Paducah and would give the city a competing road with the Illinois Central. It reaches from the east to the west and is now getting into the south. As stated yesterday, connections here with the N. C. & St. L. would give the Frisco a direct route into Nashville, where the I. C. has just been successful in going by way of the Tennessee Central. There is no question but that Nashville is destined to be a big railroad center and the railroads of the country are looking in that direction. It is a first-class market for iron and other products and a point that seems to offer many advantages to a railroad.

In a short time the Frisco officials who were here Monday will pay Paducah another visit. At that time they will make a definite statement as to their plans. It has been reported that the road intends coming into Paducah by river, using steel transfer barges between here and Joppla. This is not logical, for in bad weather, when the river is often full of ice it would be an utter impossibility to run transfers, and in low water it would also be an impossibility. All of these things have been gone over by the railroad officials and they likely realize that the river route is out of the question, and will conclude to enter the city by crossing at Joppla, Ill., and coming up on this side.

There has been some talk of the road extending to Metropolis and Brookport and coming on up to a point opposite this city and crossing here. In this report it was said that the Frisco would bridge the river here and make Paducah its southern terminal.

GOOD WORK

IS BEING DONE AGAINST THE CONSTITUTIONAL AMENDMENT

By Fire and Police Commissioner R. R. Sutherland—Many Railroad Men Oppose It.

Col. R. R. Sutherland, a member of the board of fire and police commissioners and one of the staunchest democrats in the county, is one man who does not want to see the secret ballot system abolished and no one is fighting harder than he to knock this move in the head.

"People can make mistakes in their lives," he declared this morning, "which they will regret always and I believe that every man should vote against abolishing the secret ballot; if he doesn't and this system is abolished he will regret it. I have had experience at the polls before this system was adopted and one incident was sufficient to turn me against the old system and I will stick to the secret ballot."

Col. Sutherland has been working among the railroad people at the shops, and stated that he has not met a man yet who is for abolishing the present voting system. In several instances Col. Sutherland has addressed the men in a body urging them to use their influence towards maintaining the present system of voting.

CASES POSTPONED

And the Guards at Sturgis Mines Give a New Bond.

Sturgis, Ky., Nov. 1.—The case of the 20 guards employed by the West Kentucky Coal company from St. Louis to guard their property, who were placed under \$1,500 bond each, was called before Judge Clements. After a spirited argument between County Attorney Berry and Hon. H. D. Allen the case was put off on account of some twenty of the commonwealth's witnesses being absent. After this ruling Mr. Berry then called for a new bond, claiming the one before the court was not worth the paper it was written on being signed by Auditor C. M. Ricker. This the judge also granted and a new bond of \$30,000 was soon made out and signed by J. K. Walker, of Morganfield.

The commonwealth wants to prove that these men came to peaceful territory armed, which fact is denied by all the guards and the company. The company claim that taking past strikes for example they felt justified in having these men to come here and work for the company, as well as guard their property.

This is the largest criminal bond ever asked for and filed in the county.

The case of Supt C. J. Bucher was also postponed.

Saved By Dynamite.

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long you feel as if nothing but dynamite would cure it. Dr. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep and finally cured her." IMPORTANT CASE

BIG DAMAGE SUIT, BASED ON AN ASSASSINATION COMES UP.

Mrs. M. E. Head Sues Cheatam Hodges, For \$25,000 Damages in McCracken Circuit Court.

One of the most important cases ever on the docket of the McCracken circuit court is to come up tomorrow. The suit is that of Mrs. M. E. Head against Cheatam Hodges for \$25,000 damages.

The case originated in Hickman county, Ky., where the principals formerly lived. Hodges is now residing in this city and Mrs. Head lives in Hickman county and she filed the suit here because Hodges now lives in this county.

She avers that one night Pink Head, her husband, was called out of his home in Hickman county and fatally assassinated, being killed with a shotgun. When the circuit court of Cheat county convened there was no indictment returned, although the grand jury took the case up and investigated it.

Mrs. Head alleges that Hodges is responsible for her husband's death and asks \$25,000 damages.

There are about half a dozen lawyers on each side and not less than forty or fifty witnesses. It is not known whether or not the suit will go to trial tomorrow. It will be the first time the case has been called in the McCracken circuit court.

SOUVENIR SHOVEL.

Broken Into Bits After the President Had Used It.

Washington, Nov. 1.—President Roosevelt regards his southern trip just ended as a most enjoyable and profitable experience, particularly did he enjoy the sea voyage, and the president expressed himself in most enthusiastic terms regarding the ships, officers and men of the squadron.

While at sea Sunday, the president made a speech to the officers and the men of the West Virginia. He had just completed an inspection of the entire ship.

In the boiler room a profusely decorated shovel was put into his hand and he was asked to throw a shovel of coal into a particular boiler.

He threw in two, and the boiler was immediately christened "Roosevelt Boiler."

The shovel was passed around that every stoker might shovel coal with it. It was then speedily demolished into bits, each bit being retained as a souvenir.

At the conclusion of the speech the president was given three rousing cheers by the officers and men.

A Kentucky Girl Married.

Lexington, Ky., Nov. 1.—The engagement of Miss Jennie M. Hanson of this city and Mr. James Stonehelm of Cincinnati was announced here tonight. Miss Hanson is, perhaps, the most remarkable business woman in the world, having accumulated a fortune of nearly \$150,000 in the past six years. She began taking subscriptions to magazines when she was teacher in the city schools on a salary of \$40 per month. Soon finding that she could make more money by devoting all her time to her agencies she gave up teaching. Miss Hanson later rented an office and established agencies in other cities. Two years ago she began to invest in real estate and is now rated in the mercantile agency as being worth a quarter of a million dollars. She owns Lexington property estimated as being worth a total of \$50,000, and a business block in Chicago valued at \$80,000. Her investments include bank stocks and bonds.

Important Business Decision.

Frankfort, Ky., Nov. 1.—The appellate court today reversed the judgment of the Trigg circuit court in the case of the Masonic Life Association of Western New York against Pollard's guardian, in which the appellee secured judgment below for \$2,000, and remanded it for peremptory instructions to find for the defendant company.

W. B. Pollard, sheriff of Trigg county, killed himself December 2, 1901, within three years of taking out a policy of insurance. A jury gave his children the amount of the policy.

In reversing the judgment the court here rules as follows: "The law presumes every man to be sane until the contrary is shown. Likewise the law indulges a presumption against suicide as being unnatural and immoral. But the presumption of this nature are indulged necessarily in the absence of proof. When evidence shows and the fact is that the act of suicide was committed when the person was in sound mind, no presumption can be indulged."

Too Ill to Be Tried.

Lawrenceburg, Ky., Nov. 1.—When court convened Wm. H. York, charged with the murder of his brother, was brought from the jail, and when placed in a chair, he was unable to sit without resting his head and arms on a table. As he sat in that position his trembling and moanings were such as to create sympathy in the breasts of all who saw him. Before the proceedings were ended he had to be laid on a cot which had been provided. Drs. C. W. Kavanaugh, G. D. Lillard and C. M. Paynter were sworn, and all agreed that it would be extremely dangerous to force York into a trial at this time. His disability is said by the doctors to be purely physical and caused by lack of nourishment. They also say that he has no organic disease from which he might not recover if surrounded by proper sanitary conditions. Upon this showing the case was continued to the regular January term of the court.

Blew Safe, Secured Nothing.

Grayson, Ky., Nov. 1.—Six men with handkerchiefs over their faces caught the night watchman of the Eastern Kentucky railway at Willard and bucked and gagged him. Leaving one man with a pistol at the watchman's head the others went to the Bank of Willard near by, picked the houses nearest the bank and microglycerine shots were used on the vault, blowing the door into the street. One shot on the safe blew off the time lock, and as they were preparing another shot on the safe the people began gathering. The robbers then backed away without securing any money. The building and furniture are badly wrecked. Officers followed the men to Eastern Kentucky Junction on the C. and O. railroad, where they jumped a passing freight train and made their escape.

Passengers Are Kept When They Remain in New Orleans.

Although passenger services to and from New Orleans has been resumed practically without interruption, passengers who have to remain there all night are confined in a screened room. Passengers arriving in the city from the districts known to have been infected, are also kept in the screened rooms. Kentucky ticket offices have received information that tickets can be sold to New Orleans from almost every point in the south, and that the passengers will be allowed to alight.

These precautionary measures are deemed necessary for the next few days, and will not be permanent, but have been adopted to insure against any outbreak of the disease.

Daily Thought.

"The golden rule is the soundest business philosophy."

VOTE FOR THE MAN, NOT HIS POLITICS.

"Vote the democratic ticket!"—there's no sense in such a suggestion unless the democratic ticket is worth it. The people of Paducah and McCracken county this year are thinking as they never thought before, and the main question is not, "What is the politics of these men who are running for office?" but "What can they do, and what will they do? Are they worth voting for?"

The conclusion has been forced on hundreds of democrats that the democratic tickets are not worth a vote. Some openly avow their intention of voting for a change, while others perhaps do not feel like making such an admission, but they intend to do it just the same.

The question for every person who goes to the polls next Tuesday to ask himself is, What is best for city and county; not, What is best for the party?

The republicans promise a reduc-

tion in tax rate and an increase in benefits. The people cannot stand the present management of affairs, as it means stagnation, and ultimate bankruptcy. There must be a change and the sooner the better. It is time to start now, and those who want a new deal and a good one should vote for both the city and county republican tickets.

Never before in the history of New York city has there been such an eagerness and rush on the part of the owners of real and personal property to pay their taxes at the first possible moment as this year and the result has completely shattered every previous record of receipts for the first day, says an exchange. When the office closed on the afternoon of the first day \$12,250,000 had been received in Manhattan and \$2,500,000 in Brooklyn. The largest individual payment received on the first day was that of the Vanderbilts, consisting of sixteen checks aggregating \$1,000,000. One of these checks, drawn for \$350,000, represented taxes due from the New York Central railroad, while the other represented accounts on real and personal property from the various branches of the family. The remarkable promptness of citizens in paying their taxes is interpreted as a proof of the existing prosperity and of the fact that prosperity is resting upon a more solid basis than ever before.

The democratic nominee for the legislature in McCracken county has never announced whether he is for Jo Blackburn or Judge Paynter. The election of United States senator is the issue between democratic factions this year, and the democrats have a right to know which one of the candidates their nominee is for. If it is nothing to them, and would have no effect on the election, then there is no reason the nominee in McCracken should conceal anything. As a matter of fact, however, it is something to every democrat in the county. He knows it, and is trying to keep in the dark. They should force him to show his colors. In every other county in the state, with possibly a few exceptions, the legislative nominees have announced their choice for senator. The democrats of McCracken county should seriously ask themselves why their own candidate has not done so. What has he to hide, and why does he want to hide it?

There is nothing in the Sherlock Holmes line in the Boston murder mystery's being solved. Neither is there any proof that "murder will out." The facts were learned, so far as they have been learned, simply by accident, and not by skillful detective work. The accidental discovery of the suit case with the arms and rings is all that made identification possible. And now, after all the hurrah that was raised, it develops that about the only prosecution that can result will be for a criminal operation. It ought to be a crime to mutilate a body after death in such a wanton, gruesome manner, but it is not, and it is likely, unfortunately, that the person who conceived of such a horrible means of disposing of the body of the poor girl cannot be prosecuted for it.

Attorney Hughes, who is conducting the insurance investigation in New York, is an admirable man. He had an opportunity to be mayor of New York, but declined because he had the investigation on his hands and he was too conscientious to throw it over for an office. He now has a chance to make himself one of the most popular men in New York by taking charge of criminal proceedings against the insurance officers, but he has declined this also, saying that he is not after anything except to get at the facts in these insurance cases, and when he has them, he will have nothing further to do with them. It is not every man who is willing to ride into office on popularity arising from a faithful discharge of duty. Some men do, however.

The News-Democrat has for months been telling what a very "bum" aggregation of city officials

controlled the administration. It has showed up favoritism, indifference to public opinion, extravagance, inability to transact public business in a prompt, satisfactory way, and about everything else. And now it comes and asks the people to vote for these same men, and put them back where they can do the same thing over again! The only reason it offers is that they are "democrats." This should cease to be a reason with the patient but disgusted people of Paducah.

The people of McCracken county are to vote next week on keeping the hogs out of their fields, and the people of Paducah on keeping them out of the public trough, where they are now.

COUNT SERGE WITTE

Favors Mr. R. G. Robbins With His Photo and Autograph.

Being an admirer of M. Sergius Witte, the foremost diplomat and statesman of Russia, Mr. R. G. Robbins, this city, last August addressed his respects to the czar's chief plenipotentiaries, then grappling with the momentous questions of peace and war between Russia and Japan at Portsmouth, N. H., asking the courtesy of M. Witte's autograph and a picture of his likeness. Mr. Robbins was in due course of time delighted to receive a handsome cabinet photo and the following gracious letter and postscript at the hands of Count Witte and his urbane secretary:

Petersburg, September 25, 1905.—Mr. R. G. Robbins, Mayfield, Ky.—Dear Sir: In reply to your letter dated the 18th of August, I beg to inclose the photograph of His Excellency, Count Witte. Your very truly,
J. KOROSTOVETZ, Secretary.

If you wish to send an acknowledgment please address it to His Excellency, Petersburg, Russia, H. E. Count Witte.

The packet was mailed at St. Petersburg, dated 25-IX-1905, and required two 20 kopeck stamps, the equivalent of 26 2-3 cents to post it into the United States, and was in transit twenty-three days. The stamps were handsomely embellished by the Royal coat of arms.

These evidences of the count's uniform kindly consideration toward the world have been framed and now adorn the walls of the studious recipient's law office.—Mayfield Mirror.

OUR SAILOR BOYS.

Must Be Treated With More Respect and Consideration.

Washington, Nov. 1.—The president has determined to do all that he can to break up the growing practice of discrimination in public places of amusement and public resorts and hotels against the blue jackets and sailors.

Secretary Bonaparte's action yesterday in dismissing from the service with a scathing rebuke an employee in the Norfolk Navy Yard who refused to shelter a petty officer of the navy service because he wore sailors' clothing is an indication of the executive's purpose.

It has been the subject of many official reports at the Navy Department, particularly that sailors of unblemished record and perfectly correct habits have been refused admission to theatres and entertainments in hotels because they wore a uniform which the president believes should be honored in all parts of the land. Soldiers have suffered in lesser degree from this discrimination.

It has taken the Navy Department some time to disabuse the minds of local magistrates of the impression that the navy is the proper refuge for every scapegrace youth of evil tendencies who should be sent to the reform schools.

IN THE COURTS

Circuit Court.

The case of Mrs. Lola Mankling against Mrs. Mary E. Allison will likely be finished this afternoon or tonight, Judge Reed having rushed the case as much as possible.

The case has been on trial two days now, and a great deal of testimony has been heard. At press time but few witnesses remained to testify.

Mrs. Mankling is a daughter of the late H. C. Allison by his first wife and is attempting to annul the will, which leaves the greater part of the estate to Mary E. Allison, his widow.

The case of Willie McGee against the Paducah City Railway was dismissed. A compromise was effected.

In the case of Annie Nichols against the I. C., in which the plaintiff yesterday secured a verdict for \$3,000 damages, the defendant made motion and filed reasons for a new trial.

In the case of W. B. Stanfield against the Paducah City Railway company, the plaintiff filed motion with reasons for a new trial.

Taken Back to Brookport.

Roscoe Weaver was arrested here yesterday by Officers Terrell and Cross and turned over to County Attorney Sawyer, of Brookport. It was claimed that the young man had jumped his bond at Brookport, where he is to be tried on several charges, but he denied it and went back with the attorney.

Lindsay Lock, aged 21 and Pearl Miller, aged 18, both of this city, were licensed to wed today.

Bank Still Has Policy.

There is nothing new in the \$10,000 life insurance policy case of H. A. Rose. This policy is held by the Western bank of Louisville, which recently closed its doors but has reopened, Attorney W. V. Eaton, who represents public administrator Felix Rudolph, administrator of the estate, stated that the bank still holds the policy.

Col. Hendrick in Golconda.

Col. John K. Hendrick, who has been making Democratic speeches in Livingston county, is today at Golconda, Ill., where he is appearing in a damage suit against the Illinois Central railroad. He represents the plaintiff. Col. Hendrick is due back tomorrow.

To File Injunction Tomorrow.

Attorney C. C. Grassham was busy this morning taking depositions in a back tax suit against the Ayer & Lord Tie company, which was brought in Tennessee.

Mr. Grassham stated this afternoon that he would tomorrow morning file the injunction suit against Sheriff Lee Potter to restrain the sheriff from collecting back taxes on Ayer-Lord property in McCracken county. The plaintiff wants taxes on \$30,000 worth of property. The defendant states the assessment was done arbitrarily without the consent of the company, that it did not own the property assessed, and that the property assessed was not subject to taxation here.

No Ferry Boat Today.

The Charleston this morning quit the ferryboat trade because, as Capt. Cal Waggoner stated, there was not enough money in it to pay expenses. Last week the ferryboat broke down and is now being repaired, and since then the Charleston has been running in her place. It was reported that there were many people waiting today on the Illinois shore to come over, and could not get here.

Became Assistant Secretary of Navy.

Washington, D. C., Nov. 1.—Truman H. Newberry, of Detroit, took the oath of office as assistant secretary of the navy today.

Detective T. J. Moore is expected back this afternoon from Lebanon, Tenn., where he went after Frank James, colored, charged with maliciously shooting at Gabe Fletcher, colored.

NEW WINTER RESORT.
SEASON 1905-1906.
The Beautiful Sapphire Country.

To the man whose imagination is fed with facts and fortified with observation, the southern portion of the United States will always seem the favorite child of Omnipotence and its handmaiden—Nature. Practically every resource that ministers to the wealth and greatness of a people has been lavishly placed within its borders.

Though the Creator of this full-homed magnificence dwells neither here nor there—but everywhere—we like, in all reverence, to call these Southern States indeed "God's country." One who knows the south realizes how, after material gifts had been so generously bestowed, the designing power completed its work by dotting it liberally with those imperative auxiliaries of modern civilization—resorts, summer and winter. In the case of the South these resorts have proven not only protectors of our people's health; they are adding now and they will add substantially in the future to our actual wealth.

The Florida resorts need no detailed eulogy at this date. They have already thousands of wealthy Northerners and Southerners from the lure of the European spa or the call of the Riviera. A more wonderful conquest, and one which should interest the entire South, is that of the radiant Sapphire country, that Eden of the North Carolina mountains, with which the word "Toxaway" has become inseparably identified. Its beauties and its health-compelling qualities have been open to civilization for only a few years, relatively; yet "Toxaway" means to a host of Southern and Northern people today recreation and recuperation under conditions as ideal as can be arranged by the co-partnership of man and Nature.

The six hotels under the management of the Toxaway Hotel Company, with Mr. J. C. Burrows at its head, have been instrumental in this rapid achievement. The Sapphire country itself has done the rest. The hostilities have been artfully located, getting the wide benefits which come from altitudes ranging from 2,250 to 4,780 feet. The far-reaching estate of Toxaway comprises 31,000 acres, in which are more than seventy-five miles of brook and river fishing, yielding the gamiest of game trout. In the rugged recesses of the estate there are deer, wild turkey and ruffed grouse, with bears here and there and occasionally quail. The three lakes, like shimmering sapphires splashed down in the heart of the mountains, with the winding forest roads, create indelible impressions of the place.

With the opening of the winter season Toxaway Inn—the greatest of all the Toxaway resorts—announces itself ready for business for the approaching season after having

completed the most successful summer season known in the history of Southern resorts.

From this time on this institution becomes not only a summer but a winter resort, appealing to the South in the summer and to the north in the winter. It is on the direct line of travel from eastern and western points to Florida, and Manager Burrows has made every arrangement to catch the business as it goes to and comes from Florida.

And it is safe to say that those who stop to take in the beauties of the Toxaway country will be amply compensated, for in the matter of scenic attractions there is nothing like it this side of the Rocky Mountains—Constitution, Atlanta, Ga., Oct. 12, 1905.

O O O O O O O O O O
O
O THE SECRET BALLOT IN O
O DANGER. O
O O O O O O O O O O
The following address has been sent out:

The legislature, at its last session, passed a law whereby it is proposed to give up the secret ballot and go back to the old viva voce system of voting which compels every man to let every other man see Whom and What he votes for.

This is an evil measure passed for iniquitous purposes. It is a move backward, and an effort to again adopt a system of voting in Kentucky discarded by every live Commonwealth in the United States.

The return to this system is not desired by any one, Republican or Democrat, who has the highest and best interest of this great state at heart.

The laboring man, the wage earner, the farm tenant, the poor man, and all others who are at the mercy of the capitalists, want to vote freely and without fear of capital and what it might do.

The capitalist, the merchant and the manufacturer want to vote without fear of the loss of liberty or the confiscation of their property by any political grafters, whatever may be their politics.

The secret ballot is one of the mighty safeguards of liberty and must be kept inviolate. The corrupt politician and the corrupt voter alone would profit by a return to the old way of voting.

VOTE AGAINST THIS AMENDMENT

By stamping "X" in the little square opposite the word "No," which you will find on the right hand side of your ballot, your vote will be against the amendment.

DON'T FORGET THIS.

Hand this to your neighbors, both Republican and Democratic. Yours truly,
COMMITTEE ON SECRET BALLOT

"I've been watching your work," said the merchant, "and I'd be glad to have you accept a situation with our house." "Well, said the hustler, "I'll work for you if you give me what I want." "Oh, that's out of the question, but I'll give you what you expect."

The Paducah W. C. T. U. will meet tomorrow afternoon at 3 o'clock in the lecture room of the First Baptist church.

The question for consideration is whether all the responsibility of the training of children rests with the mother or should the father assume a share. If the latter is true, what are the fathers of this country doing to fit themselves for such a sacred vocation?

The meeting will be led by Mrs. Pearl Norvell, superintendent of mothers' meetings.

A cordial invitation is extended to fathers and mothers and all others interested in training children.

George Thomas and Washington Stone, colored, charged with horse stealing, were dismissed in police court this morning.

Last week Frank Davis drove into town and put up his horse at the Isman wagon yard. Thomas is a neighbor of Davis and while he was drunk took Davis' horse out of the stable. He got some other man's harness and another person's buggy. Stone met Thomas and accepted the invitation to ride home. Albert Winfrey rode after the two when the theft was discovered and a horse stealing warrant was issued.

The evidence showed both defendants to have good reputation and there was no evidence to show felonious intent.

Ellis Drane, the negro who is alleged to have snatched Miss Ella Sanders' opera glasses several nights ago while Miss Sanders and her mother were returning from the theatre, was granted a continuance. He has been to the penitentiary once and Miss Sanders identifies him as the right man.

Other cases were: Alex Littlejohn, white, drunkenness, \$1 and costs; Sherman Mills, white, concealed weapons, \$25 and costs and ten days in jail; Wood Jones, Ernest Ozment, obtaining money by false pretences and Hewlett Jones, same charge, continued until tomorrow.

FUNERAL TOMORROW

Of Mr. Jacob Folz, a Popular Young Man Who Died Yesterday.

The funeral of the late Mr. Jacob Folz will take place tomorrow morning at 10 o'clock from the residence, burial at the Jewish cemetery.

Mr. Folz died yesterday afternoon from heart disease after a long illness. He was born 32 years ago in Union City, Tenn., and came to Paducah with his parents fifteen years ago. Two years ago his health became bad, and he was sent to Battle Creek, Mich., a few months ago, but nothing could be done for him, and yesterday afternoon he breathed his last at his home at Fourth and Jefferson.

He was unmarried, and was second son of the late Leopold Folz, who died in California two years ago. He leaves besides his mother three brothers, Messrs. Max, Lee and Simon Folz, and five sisters, Misses Jennie, Carrie, Bertha, Hannah and Jessie. All reside in Paducah except Mr. Max Folz.

FALSE ALARM

Called the Fire Department to the Palmer House This Morning.

The No. 1 fire department was called to the Palmer hotel this morning at 8:30 o'clock by a false alarm.

Some one telephoned in that the hotel was afire and the department made a good run but found nothing. It is presumed some one saw steam and smoke coming out of the kitchen and thinking the house was afire, turned in the alarm.

The drivers of the fire trucks complain of the ignorance of some of the motormen now on the cars. They allege that the motormen do not stop the cars when they see the department making runs, in order to let them turn corners. It is the custom for everything to give way to the fire departments, and if it is not done a fatal accident is liable to happen at any time which may cause loss of life as well as property.

SMALL CUTS.

Made in the Working Time of I. C. Shop Men.

This morning local I. C. employees in the locomotive and car departments began working on another schedule, the working hours being cut in both these departments.

The car shops received a cut of half an hour, the employees working from 7 to 12, 1 to 5. Formerly the men worked until 5:30.

In the locomotive department the hours are from 7 to 12, 1 to 4, this being a cut of one hour. The cut was not unexpected, the short days making it impossible to properly see to work in the shop buildings.

Found \$5,000 Pearl.

Carmi, Ill., Nov. 1.—While strolling on the banks of the Skillet Fork river, Robert Fenton, a farm laborer, found a large mussel which had been washed ashore. He took it to his employer's house and opened it. In it he found a pearl nearly as large as a thimble and perfect in luster and symmetry. Fenton brought the gem here and after a little dickering disposed of it for \$5,000.

Such was a class yell of the class of 1912 of the Ohio College of Dental Surgery, Cincinnati.

"Oh, doctor, I didn't sleep a wink last night." "My, what a toothache!" "Now we can relieve you of all of it. We extract teeth, using all the painless methods—Gas, Somnolorm, Freezing and all others. Come and get a list of our patients who are satisfied with our treatment."

GET INSIDE.

Rubbing the back won't cure backache.

A liniment may relieve, but can't cure.

Backache comes from the inside—from the kidneys.

Doan's Kidney Pills get inside. They cure sick kidneys.

Here is Paducah proof that this is so:

Mrs. Charles Williams, of 700 Terrell street, says: "Despite the use of plasters and home remedies my back ached almost continually, and as my husband who is employed by the Singer Sewing Machine Co., on Third street, continually complained of his, we were both constantly on the outlook for some means to check or eradicate the cause. Reading one night about Doan's Kidney Pills induced us to get that remedy at Alvey & List's drug store and take a course of treatment. Two boxes thoroughly proved that the preparation acts up to the representations made for it."

SALARIES TOO SMALL.

Methodist Ministers Do Not Receive Enough Pay, Declare Bishops.

Washington, Nov. 1.—Among the bishops of the Methodist Episcopal church now in session in Washington, the opinion is expressed that the pay of the ministers of the gospel has not increased in proportion to the constantly increasing cost of living.

"Salaries paid the clergy," said Bishop J. F. Berry, of Buffalo, "are none too good at best, and, taking the country over, have remained stationary for sometime. Of course some congregations keep pace with the increasing demands upon the minister, but, speaking generally, it is safe to say that salaries have not advanced to meet existing conditions. Living expenses have been growing year after year, they will be higher this year than last, and the church people ought to meet this situation in the material way so necessary even for the members of the clergy."

Bishop W. F. Mallalien, of Boston, also said salaries are not commensurate with the demands the ministers of the churches of all denominations have to meet.

The "popularizing of the pulpit," manifest in some churches, does not meet with the approval of the bishops of the Methodist church. Bishop Berry takes the position that there should not be any change in the standard of preaching that has so long characterized the Methodist denomination.

BOYS' PRANKS

Marked Hallowe'en Night—Very Little Damage Reported.

Last night was Hallowe'en and a great deal of vandalism was committed by boys. It consisted of taking off gates and playing other senseless pranks.

One which seemed to have been popular, caused a great deal of fright in some residence portions. Boys would dress up in fancy costumes some blacking their faces and others making up like tramps, and call from door to door asking for food. Several residents had prepared before hand and made sawdust pies which were handed out to the "beggars."

Mr. Holand, a father renovator residing near Tenth and Clark streets reported damage to a buggy and wagon. Boys took them down into a hollow and damaged the shafts and wheels. This, with the carrying off of gates and an occasional breaking of fences, was about the only vandalism reported.

SPECIAL GRAND JURY

Is in Session Probing the Roach Assassination.

Two weeks ago Circuit Judge Bugg called a meeting of the Fulton county grand jury to examine witnesses in the Roach assassination case, but not until yesterday was it made public that such an action had been taken. The jury met yesterday at Hickman and over 50 witnesses have been questioned for information. It is not known just how much has been learned, but it is thought probable that an indictment will be returned.

Brewster's Millions

Copyright, 1904,

& Company

By GEORGE BARR M'UTCHEON
(RICHARD GREAVES)

(Continued From Yesterday.)

"It seems that Sedgwick never married. Your mother was his sister and his only known relative of close connection. He was a man of most peculiar temperament, but in full possession of his mental faculties. You may find this will to be a strange document, but I think Mr. Jones, the executor, explains any mystery that may be suggested by its terms. While Sedgwick's whereabouts were unknown to his old friends in New York, it seems that he was fully posted on all that was going on here. He knew that you were the only child of your mother and therefore his only nephew. He sets forth the dates of your mother's marriage, of your birth, of the death of Robert Brewster and of Mrs. Brewster. He also was aware of the fact that old Edwin Peter Brewster intended to bequeath a large fortune to you, and thereby hangs a tale. Sedgwick was proud. When he lived in New York he was regarded as the kind of man who never forgave the person who touched roughly upon his pride. You know, of course, that your father married Miss Sedgwick in the face of the most bitter opposition on the part of Edwin Brewster. The latter refused to recognize her as his daughter, practically disowned his son and heaped the harshest kind of calumny upon the Sedgwicks. It was commonly believed about town that Jim Sedgwick left the country three or four years after this marriage for the sole reason that he and Edwin Brewster could not live in the same place. So deep was his hatred of the old man that he fled to escape killing him. It was known that upon one occasion he visited the office of his sister's enemy for the purpose of slaying him, but something prevented. He carried that hatred to the grave, as you will see."

Montgomery Brewster was trying to gather himself together from within the fog which made himself and the world unreal.

"I believe I'd like to have you read this extra—the will, Mr. Grant," he said, with an effort to hold his nerves in leash.

Mr. Grant cleared his throat and began in his still voice. Once he looked up to find his listener eager, and again to find him grown indifferent. He wondered dimly if this was a pose.

In brief, the last will of James T. Sedgwick bequeathed everything, real and personal, of which he died possessed to his only nephew, Montgomery Brewster of New York, son of Robert and Louise Sedgwick Brewster. Supplementing this all important clause there was a set of conditions governing the final disposition of the estate. The most extraordinary of these conditions was the one which required the heir to be absolutely penniless upon the twenty-sixth anniversary of his birth, Sept. 23.

The instrument went into detail in respect to this supreme condition. It set forth that Montgomery Brewster was to have no other worldly possession than the clothes which covered him on the September day named. He was to begin that day without a penny to his name, without a single article of jewelry, furniture or finance that he could call his own or could thereafter reclaim. At 9 o'clock, New York time, on the morning of Sept. 23 the executor, under the provisions of the will, was to make over and transfer to Montgomery Brewster all of the moneys, lands, bonds and interests mentioned in the inventory which accompanied the will. In the event that Montgomery Brewster had not in every particular complied with the requirements of the will to the full satisfaction of the said executor, Alexander Jones, the estate was to be distributed among certain institutions of charity designated in the instrument. Underlying this imperative injunction of James Sedgwick was plainly discernible the motive that prompted it. In almost so many words he declared that his heir should not receive the fortune if he possessed a single penny that had come to him in any shape or form from the man he hated, Edwin Peter Brewster. While Sedgwick could not have known at the time of his death that the banker had bequeathed \$1,000,000 to his grandson, it was more than apparent that he expected the young man to be enriched liberally by his enemy. It was to preclude any possible chance of the mingling of his fortune with the smallest portion of Edwin P. Brewster's that James Sedgwick on his deathbed put his hand to this astonishing instrument.

There was also a clause in which he undertook to dictate the conduct of Montgomery Brewster during the year leading up to his twenty-sixth anniversary. He required that the young man should give satisfactory evidence to the executor that he was capable of managing his affairs shrewdly and wisely; that he possessed the ability to add to the fortune through his own enterprise; that he should come to his twenty-sixth anniversary with a fair name and a record free from anything worse than mild forms of dissipation; that his habits be temperate; that he possess nothing at the end of the year which might be regarded as a "visible or invisible asset"; that he make no endowments; that he give sparingly to charity; that he neither lend nor give away money, for fear that it might be restored to him later; that he live on the principle which inspires a man to "get his money's worth," be the expenditure great or small. As these conditions were prescribed for but a

single year in the life of the heir, it was evident that Mr. Sedgwick did not intend to impose any restrictions after the property had gone into his hands.

"How do you like it?" asked Mr. Grant as he passed the will to Brewster.

The latter took the paper and glanced over it with the air of one who had heard but had not fully grasped its meaning.

"It must be a joke, Mr. Grant," he said, still groping with difficulty through the fog.

"No, Mr. Brewster, it is absolutely genuine. Here is a telegram from the probate court in Sedgwick's home county, received in response to a query from us. It says that the will is to be filed for probate and that Mr. Sedgwick was many times a millionaire. This statement, which he calls an inventory, enumerates his holdings and their value, and the footing shows \$8,345,000 in round numbers. The investments, you see, are gilt edged. There is not a bad penny in all those millions."

"Well, it is rather staggering, isn't it?" said Montgomery, passing his hand over his forehead. He was beginning to comprehend.

"In more ways than one. What are you going to do about it?"

"Do about it?" in surprise. "Why, it's mine, isn't it?"

"It is not yours until next September," the lawyer quietly said.

"Well, I fancy I can wait," said Brewster, with a smile that cleared the air.

"But, my dear fellow, you are already the possessor of a million. Do you forget that you are expected to be penniless a year from now?"

"Wouldn't you exchange a million for seven millions, Mr. Grant?"

"But let me inquire how you purpose doing it?" asked Mr. Grant mildly.

"Why, by the simple process of destruction. Don't you suppose I can get rid of a million in a year? Great Scott, who wouldn't do it! All I have to do is to cut a few purse strings, and there is but one natural conclusion. I don't mind being a pauper for a few hours on the 23d of next September."

"That is your plan, then?"

"Of course. First I shall substantiate all that this will sets forth. When I am assured that there can be no possibility of mistake in the extent of this fortune and my undisputed claim I'll take steps to get rid of my grandfathers' million in short order."

Brewster's voice rang true now. The zest of life was coming back.

Mr. Grant leaned forward slowly, and his intent, penetrating gaze served as a check to the young fellow's enthusiasm.

"I admire and approve the sagacity which urges you to exchange a paltry million for a fortune, but it seems to me that you are forgetting the conditions," he said slowly. "Has it occurred to you that it will be no easy task to spend a million dollars without in some way violating the restrictions in your uncle's will, thereby losing both fortunes?"

COMPLAINTS CAUSED

BY HABITS OF LIVING—EVERY CITY VISITED BY CHARACTERISTIC AFFLICTION, SAYS PAYNE.

Of the thousands of people who have called on Payne and his assistants in this city, it is said that a majority was suffering with stomach troubles in different forms.

Payne explained that in each city visited, some particular ailment is prevalent. In some parts of the country many are afflicted with rheumatism, while in other places, catarrh and liver and kidney disorders cause most of the suffering. But in Paducah it is said that it is stomach trouble that claims many victims. The afflictions that are common to different parts of the country Payne explained, are due to climatic conditions and the people's habits of living.

"During Payne's visit in this city there were hundreds of callers who told about what they had suffered because of stomach trouble."

Of the stories told by those who called yesterday the statement made by John Meyer will give an idea of the work that the Payne's remedies are accomplishing:

"I have been suffering for some time with stomach trouble, which gradually grew worse. I felt weak and nervous and I had a coated tongue and bad taste in my mouth most of the time. I frequently woke up in the morning after tossing most of the night feeling more tired than when I went to bed. A few days ago I decided to try the Payne's remedies and I bought some of the New Discovery. My improvement began almost with the first dose and now I feel better than I have for years."

Another interesting story was told by Henry Korb, who said: "For a number of years I had been troubled with rheumatism and my joints were swollen and painful. I had tried many remedies and received little benefit. Then I bought some of the Payne's preparations and almost as soon as I began to use the medicine I was relieved. Within two weeks the swelling was gone and the pain had left me and I feel better than I had for a long while."

Payne's remedies can be obtained at all hours at Smith & Nagel's, 4th and Broadway.

MANY MILLION

Will Be Saved For the Government Next Year.

Washington, Oct. 31.—Millions of dollars will be saved during the next session of congress through economy in the government departments, a result of a propaganda headed by Senator Cannon, re-inforced by Secretary Shaw and backed by President Roosevelt. Today, just before leaving for Panama, Mr. Taft sent over his estimates to the secretary of the treasury. The estimates were \$10,000,000 lower than last year, and yet the secretary expressed the belief that no bureau or division of his department will suffer in consequence. Yesterday Mr. Metcalf, head of the department of commerce and labor, put in his estimates and they were \$2,000,000 below those of the year before. These two are but forerunners of what is to be expected of the other five departments of the government.

ENGLISH STEAMER

Claims the Accident to the Magnolia Due to the Latter.

New Orleans, Oct. 31.—The captain of the Esparta refuses to make any statement to the public, as his vessel is under a British flag and he must submit his report to the British consul. The United Fruit company, to which the vessel is chartered, however, issued the following statement:

"The Esparta sighted a vessel afterward found to be the Magnolia. The Magnolia blew two whistles, signifying her intention of passing to starboard, which was answered by the Esparta, which latter vessel continued up the river and at the time of such signal was within 100 feet of the west bank of the river. About two minutes after the Magnolia blew the first signal she blew one whistle, signifying her intention of changing her course and crossing to the inside of the Esparta. The pilot of the Esparta, seeing danger in such action blew whistles and also the danger signal of three whistles, signifying the danger of such a move on the part of the Magnolia, as the pilot of the Esparta was aware of the fact that there was not enough room between the vessel and the bank of the river for the Magnolia to pass, as he had taken his ship in as close as possible, so as to leave plenty of room in the middle of the river for the Magnolia, and had the Magnolia adhered to her original signal and intention of passing to starboard, would have passed clear, as the river was over half a mile wide at that point. Instead of this, the Magnolia heaved to port and the two vessels collided. The Esparta struck the Magnolia on the portside about 20 feet above the bows, and considerable damage was done the Magnolia."

FAMOUS ASTHMA CURE.

Great Medical Triumph of Austrians Amazes American Profession.

New York, Oct. 31.—In less than two years since its introduction into this country the wonderful success of ascatco the new specific for asthma, bronchitis and catarrh, has astonished the medical profession more than any other discovery in medicine since the famous Dr. Jenner introduced vaccine as a preventative of smallpox.

Obstinate cases, hitherto admitted by physicians as incurable, have yielded to 500 drops of ascatco and permanent cures have resulted. The dose is only 7 drops twice daily. Free samples are being distributed by mail to all sufferers through the Austrian dispensary, 32 West 25th street New York City.

But Man Who Killed a Kentucky Woman Got 99 Years.

St. Louis, Mo., Nov. 1.—Frank Wallis Card pleaded guilty to the charge of murdering Mrs. Beulah Craft, formerly of Henderson, Ky., for whom he had forsaken his wife, and was sentenced by Judge Reynolds to ninety-nine years' imprisonment. Card was silent in court as he had been ever since the tragedy. All efforts to get him to talk of his crime were in vain. He had become known at the jail as "The Silent Man."

When seen in the jail Card was smiling. Queried as to the cause of his merriment he said that he was pleased at having escaped hanging.

NOBODY IS EXEMPT.

A New Preparation Which Everyone Will Need Sooner or Later.

Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take some one of the many so-called blood purifiers, which, in many cases, are merely strong cathartics. Such things are not needed. If the organs are in a clogged condition, they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good.

Purging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets—give them needed help, and you will have no trouble.

It's a common-sense medicine and a common-sense treatment, and it will cure every time. Not only cure the disease but cure the cause. Goes about it in a perfectly sensible and scientific way.

We have testimonials enough to fill a book, but we don't publish many of them. However—Mrs. E. M. Faith, of Byrd's Creek, Wis., says:

"I have taken all the Tablets I got of you and they have done their work well in my case, for I feel like a different person altogether. I don't doubt if I had not got them I should have been at rest by this time."

H. E. Willard, Onslow, Ia., says: "Mr. White, of Canton, was telling me of your Dyspepsia Tablets curing him of Dyspepsia, from which he suffered for eight years. As I am a sufferer myself I wish you to send me a package by return mail."

Phil. Brooks, Detroit, Mich., says: "Your Dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia, but am now entirely cured and enjoy life as I never have before. I gladly recommend them."

It will cost 30c to find out just how much Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

on Jefferson between 8th and 9th streets, \$100.

J. W. O'Bryan, frame, on Madison between 16th and 17th streets, \$1,000.

J. R. McIntyre, frame, on 22nd between Trimble and Lindsey streets, \$600.

Small Fire Loss.

The fire departments made a total of fourteen runs last month, the most serious fire being the Hudson residence Monday night.

The total damage by fire during the month will amount to not more than \$1,000, it is estimated.

Arrests for October.

There was quite a decrease in arrests for the month of October, the total being 131. The various offenses for which arrests were made were as follows: Drunk 9, robbery 1, obtaining money under false pretenses 10, fugitive from justice 1, flourishing a pistol 1 grand larceny 3, breach of the peace 55, breach of ordinance 6, horse stealing 2, carrying concealed weapons 2, obtaining board by false pretenses 1, malicious cutting 3, using insulting language 1, drunk and disorderly 3, immorality 4, selling liquor without a license 2, petty larceny 4, gambling 8, malicious shooting 1, suspect 1, disorderly conduct 4, shoplifting 1, using profane language 2, false swearing 1, total 131.

Marriage Licenses.

During October there was quite a rush in the matrimonial line, 51 couples being licensed, 35 were white couples and 16 colored.

Railroad Hospital Report.

The I. C. hospital did not experience a very busy month in October. During the past month a total of 80 patients was admitted. At the first of the month there were 32 patients under treatment and at the close but 20. One death during the month was reported.

I. C. Has Increase in Business.

The I. C. road reports a very good month in every department.

The travel was very good, an increase being shown. The baggage business was also brisk, a big increase in travel south by drummers being shown.

The freight department reports a steady increase in business especially on the Paducah district. The coal business is one of the biggest items in this department and 12 new mines were opened this winter.

Burial Permits Issued.

City Clerk Henry Bailey issued during the past month a total of 21 burial permits, 12 white and 9 colored.

Riverside Hospital Report.

The monthly report of Riverside hospital was given out this morning and is as follows: City patients at the beginning of the month 4, number of private patients at the beginning of the month 10, number of city patients received 14, number of private patients received 12, total 40, number of city patients discharged 15, number of private patients discharged 16, number of deaths 2, number of city patients at the end of the month 1, number of private patients at the end of the month 6. In September the hospital more than paid all expenses and in October the revenue from the private patients almost pays the expenses. Formerly the city hospital cost the city at the rate of about \$300 or \$400 a month. Now it costs practically nothing, affords the public a good, clean, up to date hospital when they are in need of one, and gives city charity patients the best possible attention and service besides. The city should be proud of the hospital and the success it is having.

Revenue Report.

Stamp Deputy L. L. Bobout's report for October is: Collections, \$9,581.79; stamps were issued for 1,276 barrels. This was an unusually large month.

37 Deaths in October.

City Health Officer Graves' report states that during the month of October there were 37 deaths in Paducah, which is a small number compared with other months.

AGAIN CONTINUED.

Was the Wood-Hobson Cutting Case.

The case against John B. Hobson, charged with maliciously cutting Capt. Joe Wood, of the police force, was this morning continued until next Wednesday on account of Capt. Wood still being unable to attend court.

Capt. Wood was better yesterday and left his room to get shaved. On his return he became worse and this morning was unable to leave his bed. The case was continued in order to give him plenty of time in which to recover.

—Jesse Frahm, a well-known barber, is in the city hospital suffering from rheumatism. He was admitted yesterday afternoon.

MINE EXPLOSION.

Three Men Killed at Hartford While Firing Shots.

Hartford, Ark., Nov. 1.—On account of an explosion in the mines of the Central Coal and Coke company in this city the following are dead:

JOHN REDYARD.

HARRY REDYARD.

JIMMIE SCOTT.

Father, son and son-in-law.

All were shot-firers. John Redyard being one of the fire bosses.

The cause of the explosion is unknown, but is generally supposed to have been a gas explosion.

The miners quit their work at 4 o'clock, when the shot-firers enter to touch off the blasts already prepared by the miners, a part of miners' work considered most dangerous, in fact the average life of a shot firer being about half that of those of many other hazardous vocations.

Jimmie Scott was married to the daughter of John Redyard only about a month ago.

The officials of this company have realized for some time the necessity of more ventilation and let the contract last spring for the sinking of another air shaft, which has just been completed and preparations are being made to put in the fan.

RECORD BROKEN.

Ed. Bryan Traveled Two Miles in 4:45—40 Years Record.

Philadelphia, Nov. 1.—Ed. Bryan, the bay gelding trotter yesterday broke the world's two mile record, which has stood for forty years. The time was 4:45. The best previous record was 4:56 1/2, made by Dexter on October 27, 1865.

Yesterday's performance was considered remarkable by horsemen who saw the event, as Dexter's time was made to a skeleton wagon, while Ed. Bryan's time was made to a bicycle wheeled road wagon.

Ed. Bryan finished strong and looked as though he could go another mile at the same clip.
